

2014~2017

Rover

Work Plan

Prepared by

David Wong and Goh Wei Xuan for National Rover Council

Endorsed by

National Rover Roundtable

Dated 22 August 2014

Rover Dream

"I have a dream.....

That Rover crews all over Singapore gather together to plan and implement National level community projects and overseas expeditions.

That we hold a respected position as the embodiment of Scouting Values, Methods and Principles.

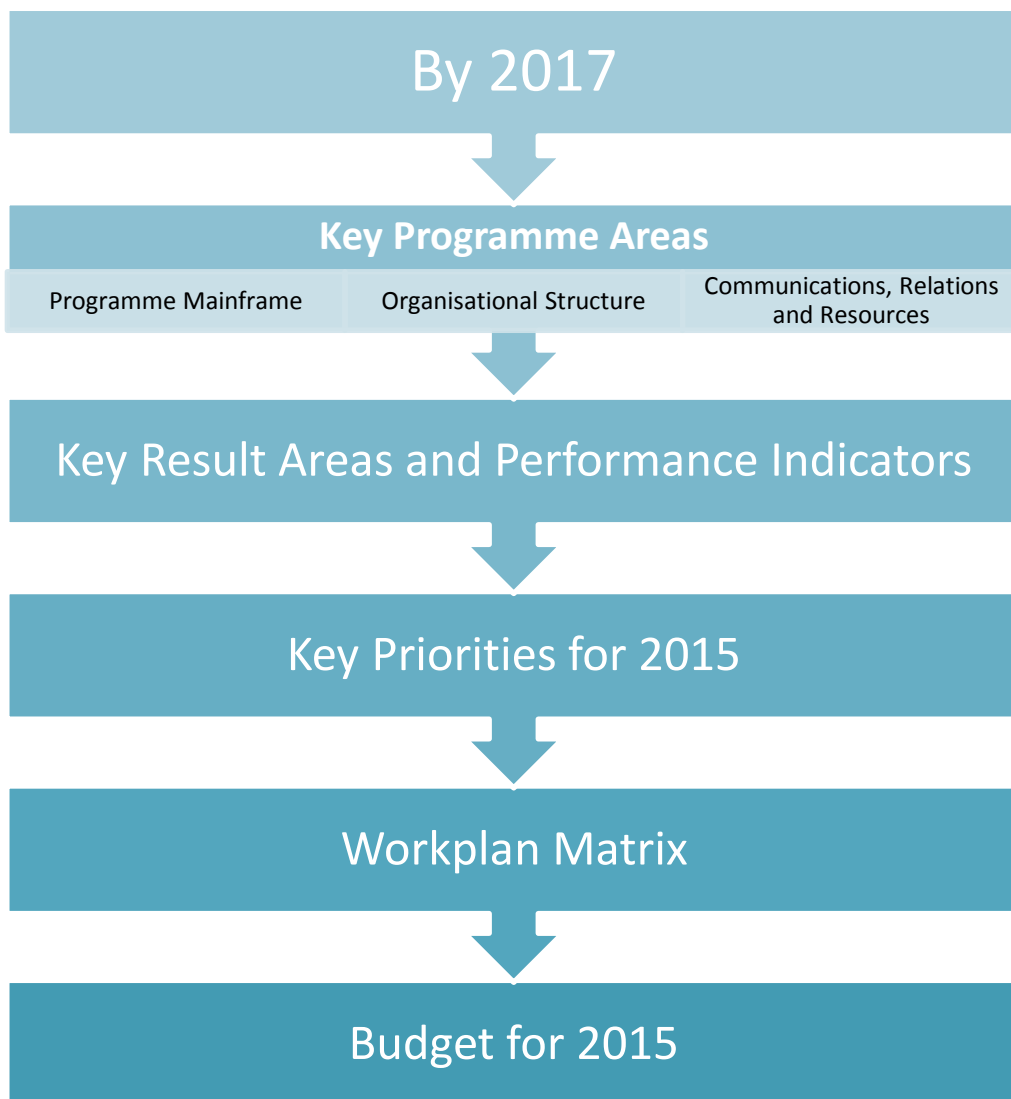

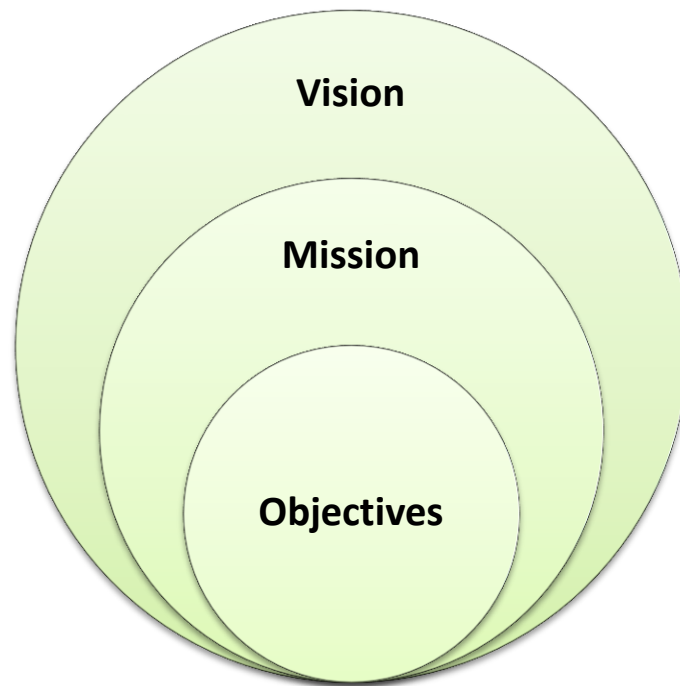

That one of us representing Rovers is invited to Istana to receive the highest accolades as a testimony to our contribution to the community and society.

That Rovering represents the journey through leadership training and application under collective leadership of our very own Council which organizes quality leadership and technical skills training courses for ourselves and others."

This Vision was conceptualized by the Rover Thinkers¹ in beginning of 2003. It is still the shared aspiration of all who believes in Rovering and will continue to serve as an inspiration to all Rover Programme developers in Singapore.

¹ The Rover Thinkers group was found by a group of young adults with strong conviction that revitalizing the Rover Programme is the key to revitalize Scouting in Singapore. This team is led by Dr Chua Kian Wee, the National Rover Scout Commissioner.

1 INTRODUCTION

This work plan charts the direction of programme development for Rovering in Singapore for the next 3 years. It is hoped that by 2017, the Rover Programme which comprises 3 Key Programme Areas (KPA) will be fully functional and self-renewing.

The Rover Programme is unique from other sectional youth programmes in that it promotes self-governance and greater Youth Involvement as so to make the programme more relevant and attractive to young adults. It is a Youth-led programme supported by the adult members of the Movement.

2 VISION

Upon reviewing the work done by the 1st NRC, which gave a clearer form and direction of **what** and **how** Rovering should be in Singapore, the 2nd NRC has conceptualised the following Vision:

To be an engaging, active and cohesive rover community as an icon of youth development in Singapore, which addresses global concerns pertaining to Peace, Environment and Development and be always prepared to be called upon for humanitarian assistance and disaster relief operations.

3 MISSION

To help the transition from adolescence to adulthood and support young people, young women and men, in the final phase of their integration in adult society².

4 OBJECTIVES

These are the core objectives of the Rover Programme in Singapore:

4.1 Youth Development / Educational Objectives

The first and foremost objective of Rovering is meet the Mission which is the educational outcome of the Rover Programme. The measurement for this objective will be via the robustness of Rover Programme and from the quality and quantity of youth leaders that are generated from Rovering. The Rover Programme should also assist a Rover to integrate himself/herself into the working society while continuing to be a contributing global citizen. The following are the educational objectives as defined in WOSM Guidelines for the Rover Scout Section (May 2009).

- a. **To provide young adults with opportunities to undertake their personal development through the areas of growth, which Scouting recognizes: physical, intellectual, emotional, social, spiritual growth which leads to character development.**
- b. **To give young adults the opportunity to discover the challenges of today's world and to develop the motivation and the skills to face them, not only within their community and their country but also at international level.**
- c. **To help young adults acquire experience and skills in leadership.**

In Scouting leadership is concerned with playing an active role in helping others to co-operate well: analysing and solving problems, managing conflicts and making decisions together, setting-up and evaluating objectives, organising and planning collective projects, establishing community rules, progressing and enjoying life together. Acquiring these skills is essential for future active and responsible citizens.

- d. **To help young adults develop their own path in life and actively plan their future to achieve their social and economic integration.**

This is the number one issue for young adults. They have to prepare their full integration in society: set of values and spiritual life, family choices, vocational options, citizen's commitments. This issue is socially very important in modern societies because the transition to adult roles is much more complex and difficult than in the past. The credibility of the Scout Movement will depend more and more upon its capacity to play an effective role in this process.

² As defined in the Guidelines for the Rover Scout Section dated May 2009, World Scout Bureau.

3.1 Youth Involvement

Youth involvement in decision-making is priority number one in the World Strategy for Scouting adopted by the 36th World Scout Conference in Thessaloniki, Greece and confirmed by the 37th World Scout Conference held in Tunisia in 2005. The Association will benefit greatly by involving youths in decision-making at all levels, from the simple decisions at personal and patrol level; to the more complex decisions at national level. The involvement of youths will help to make the programme more relevant and it also aid in preparing the youths to take up leadership position within the Association.

The other aspect of youth involvement would be representation of SSA or Singapore Youths at National and International Seminars such as Prime Minister Dialogue and United Nations Youth Forum.

3.2 Adult Leadership Recruitment

Rovering is the bridge between youth members and adult members in the Movement and the crux is to perform the role of this bridge effectively so that it can significantly contribute to the adult resource for SSA. This objective can be measured from the number of Rovers who become Adult Leaders after departure or concurrently whilst as a Rover. Not only the numbers will be looked at, the quality of leadership will also be an indicator of the success of this objective. Besides moving on to be Adult Leaders, Rovers who depart without taking on an active uniformed leadership role should continue to stay in the Movement in the Scout Guild. It is therefore essential that the Rover Programme should promote transition of the Rovers into these roles.

3.3 Youth Leadership for Crisis and Adventure

The Rover Programme should encompass elements to gear the readiness and activeness for Youth to be involved with global concerns such as those defined in the Vision. It is hope that from 2017 onwards, SSA will have a team of enthusiastic and trained Rovers to lead or contribute significantly in disaster relief and humanitarian assistance(HADR) efforts initiated by National or International bodies.

4 By 2017

The Rover Programme should be fully functional by end of 2017 with the follow key targets:

- 4.1 The Rover Programme is fully updated and functional.
- 4.2 The NRC and NRR are fully functional, self sustaining and renewing.
- 4.3 NRC has the financial and professional expertise for continual development of RIS.
- 4.4 A Community of Rovers is built up to foster greater cohesiveness among all Rovers in Singapore.
- 4.5 Becoming a Rover, even without Scouting background, and starting a Rover Crew is easy and fuss free.
- 4.6 Increase in Rover population to 15% of Youth Members in Singapore.
- 4.7 Rovers being regarded as respectable and reliable Youth Member of SSA.
- 4.8 Local and international Rover Resources are readily available and accessible.
- 4.9 At least a team of Rovers to take part in HADR operations.

KEY PROGRAMME AREAS

All these targets are captured in the following 3 Key Programme Areas (KPAs) for operationalising the Rover Programme³ in Singapore.

5 KPA 1: PROGRAMME MAINFRAME

This section describes the expected achievement for the respective programme components by end of 2017.

5.1 The Rover Journey

This is the totality of the Rover Programme, incorporating the progress scheme as milestones of the journey. For the Rovers, it's everything they do in Rovering. A handbook for Rovers will be produced by 2016 to accompany this new integrated programme.

³ World Programme Policy adopted by the 32nd World Scout Conference, Paris, 1990 defines "Youth Programme is the totality of what young people do in Scouting (the activities), how it is done (the Scout method) and the reason why it is done (the purpose)"

5.2 Team System

All Rovers should belong to a crew with Roundtable or combined Roundtable if the crew is small in numbers. This is important as Rover should not function as individual but as part of a team to foster peer learning and team management ability.

5.3 Symbolic Framework

a. Investiture

All Rovers to be have undergone the Squireship, Vigil, Investiture and ultimately, the Departure. A generic localised ceremonial protocol shall be made available for Rover Leaders to make reference to. ETC 2015.

b. Rover Motto – Fellowship of the Open Air and Service

The motto becomes synonymous with Rovering and becomes the main tagline associated with Rovering in Singapore within the Scouting Community and the Public.

c. Auxiliary Wear

A fashionable Rover Shirt/T-Shirt to be produced as part of the Rover Starter Kit. This garb will be the general wear for rover activities and it contributes to the corporate image of Rovering in Singapore. The Rovers will still retain the customary uniform for ceremonial and formal occasions.

d. Rovering to Success – Five Rocks

Every Rover should have in possession this book and have read it and understand the principles of Rovering.

e. Chivalry – Knighthood

A localised version of chivalry to be introduced with close links to Singapore roots while maintaining the original ideals of Chivalry as explained by Baden-Powell in his literatures.

5.4 Progressive Scheme

a. BPA Presentation Ceremony to be a solemn and high key event of the year.

b. The scheme will be reviewed in 2015 and be fused closely with the other aspects of the Rover Programme such that it is a homogeneous Rover Journey.

c. Scheme Supporting Resources

5.5 Scouts of the World Programme

This programme should be integrated to be part of the Rover Programme as the age group is similar.

5.6 Events

The following events will be conducted on a yearly basis to create an active and vibrant Rovering scene in Singapore.

a. National Rover Conference incorporating Annual General Meeting, NRC Election and BPA Ceremony

b. Annual National Rover Service Project

c. National and Regional Youth Seminar

d. Adventure Skill Courses

e. Oversea Expeditions

f. Leadership and Life Skills Courses / Workshop

g. Biennial/Triennial National Rover Moot

5.7 Crew Start-up

Rover Crew start ups should be streamlined and supported with ample human and material resources for sustainability. We are exploring the idea of a HQ based Crew so that individuals who wishes to embark on the Rovering Journey can do so without the hassle of sourcing a crew.

5.8 Adult Support

a. Rover Leaders are trained and equipped with the necessary skills and tools to support Rover Crews.

b. Workshops / Dialogues.

5.9 Youth Involvement

- a. Increased Youth Involvement in shaping HQ policies through feedback and representation.
- b. Increased representation in Youth forums, seminars and events at National and regional level.

6 **KPA 2: ORGANISATIONAL STRUCTURE**

The organisational structure is part of the Rover Programme as it grants greater autonomy to the Rovers to design and run the programme they desire, in line with existing guidelines.

6.1 National Rover Advisory Committee (NRAC)

- a. NRAC Handbook with Job Description and Terms of Reference
- b. NRAC will spend more time out-reaching to crew and support their programmes especially newly start up crew.
- c. Provide quality training for RSLs to equip them with the concepts of Rover Programme and the know-hows to implement it successfully.

6.2 National Rover Council (NRC)

- a. Recognised as collective leadership of Rovering Affairs in Singapore and represents the Rovers and Youth members in general to feedback and contribute to the shaping of SSA policies.
- b. The NRC is self-renewal and self-directing with minimal guidance and push from NRAC.
- c. The NRC will convene on a monthly basis with a Work Plan Retreat within 2 months after the formation of the council

6.3 National Rover Roundtable (NRR)

- a. NRR meetings are robust and serious with motivated crew representatives.
- b. NRR to be engaged in shaping Rovering and Youth Programme in Singapore
- c. The NRR will convene minimally twice a year

6.4 Rover Crew in Tertiary Institutions

- a. To set up crews in tertiary institutions for regular membership recruitment.

6.5 Workgroup and Project Teams

All permanent workgroups to be established with corresponding Job Descriptions and Terms of Reference. The workgroups shall be formed by members from the NRR and chaired by an NRC member.

7 **KPA 3: COMMUNICATIONS, RELATIONS AND RESOURCES**

7.1 Start-up Kit

Every youth who wishes to know more about Rovering can pick up a start-up kit which has all the information necessary for him to embark on his Rovering journey. This kit should be made available in the Scout Shop as well as in major book stores.

7.2 Publications

a. Rovering to Success

We have printed 40 copies of a re-mastered copy of the book. By 2015, the book will be re-printed and made available to Rovers at low cost. Currently, the versions that are available on the market are expensive and some are of inferior quality.

b. Rover Handbook

The handbook comprises all information pertaining to Rovering worldwide with localised information. It helps a Squire and young Rover to embark on his journey in Rovering with ease and clarity.

c. Social Networking and Online Resources

A definitive site will be established to improve accessibility to information and to promote interaction and communication among Rovers in Singapore.

7.3 Relations

a. Rover Community

Part of our Vision is to create a Rover Community where each Rover is an active member of the community and contributes to the achievement of our Vision. The network between crews is important as it facilitates

information exchange and experience sharing. It also helps to alleviate challenges posed by small crew size in areas of projects and activities.

b. Local

A healthy relationship with local NPOs and youth agencies will ensure the smooth and supported development of Rovering in Singapore.

c. International

Official relations to be established with other NRCs to facilitate co-operations and professional exchanges. We should also have representatives at Asia Pacific Region as well as World level as ambassadors of Singapore Rovers.

8 **KEY RESULT AREAS AND INDICATORS**

From the 3 KPAs described above, the following Key Results Areas (KRAs) have been identified with its corresponding Key Performance Indicators (KPIs)⁴.

Key Result Areas	Key Performance Indicators	Current
Membership	1. 20% absolute increment in recruitment from Youths without Scouting background	
	2. 70% in membership retention (i.e. continuation from Venture Section)	Est. 25-35%
	3. 100% of new Rover Crews are registered with SSA and orientated to function in NRR within 6 months of formation	Est. 80-90%
Activity	4. At least 2 major projects initiated by NRC/NRR per year with total participation of 80% Rovers and 3 minor events/courses with total participation of 50% Rovers	
	5. 2 other projects initiated by Rover Crews with 50% of participants from Rover Crews other than the organisers	None
Cohesive Community	6. 100% Crew Representation in NRR from all registered active Rover Crews	23 Rover Crews (Est. 80%)
	7. 80% attendance for AGM/Pow Wow	
	8. Social Media	200 hits /mth
	9. 70% of Rovers response to emails and notices within 3 days	
Reputation / Publicity	10. 2 National media reports per year	None
Adult Leaders / Scout Guild Members	11. 50% of members being appointed as Adult Leaders during and/or after Rover	Est. 30 - 40%
	12. 80% of members joining the Scout Guild during or after Rover	Est. 10%
Representation	13. 10 representations or mentions at National and International Events annually.	

⁴ KPIs are used as quantitative measurement of the success of the Rover Programme and it's only meant as a reference and a more definitive assessment of success may be derived from qualitative analysis of the process and results of the Rover Programme.

9 KEY PRIORITIES FOR 2015

Priority	Task	Person Responsible	EDC
1.	Full Operation of NRC and NRR	Chairperson	Dec
2.	Rover Conference	Programme	Nov
3.	Full Operation of NRAC	PC (Rover Scout)	Jun
4.	Review and integration of RPS and Rover Journey	Programme, SWP	Dec
5.	Promotion of RPS and increase number of award recipients	Programme	Jun
6.	Online resources and communications	Secretariat	Mar
7.	Make available cheaper Rovering to Success	Relations	Mar
8.	To organise Expeditions for Rovers adventure and fellowship activities	Programme	Mar
9.	Start Production of Rover Crew Start Up Kit and Handbook	Programme	Sep
10.	Comprehensive networking opportunities and processes to facilitate exchange of information and experiences between crews and also to promote inter-crew cooperation	Relations, Communications	Jun
11.	Rover Leader Bridging Course / Workshop	Programme / NRAC	Jun
12.	Develop and implement work processes and guidelines for NRC and Rover Crews to adopt when executing National Projects	Programme	Sep
13.	Training courses to equip Rovers with necessary skills (including service learning)	Programme	Mar
14.	To make Rovering as accessible (in every tertiary institution)	Relations	Dec

9. WORK PLAN MATRIX

The following matrix shows the timeline for this work plan window:

	Phase 1 (Jul – Dec 14)	Phase 2 (Jan – Jun 15)	Phase 3 (Jul - Dec 15)	Phase 4 (2016)	Phase 5 (2017)
Development	♣ Jumpstart local network ♣ Structure information sharing system (web portal, Social media, resource library etc) ♣ Set up steering committee for Rover Moot	♣ Plan and recruitment for Rover Moot ♣ Plan for Rover training and skill courses. ♣ Strengthen communication between Rover Crews ♣ Integrate RPS into Rover Journey	♣ Review Rover mentorship programme ♣ Plan for starting Rover Crews in tertiary institutions ♣ Development of Start-up Kit and Handbook	♣ Review tertiary plan ♣ Structure international network ♣ Develop methods in providing international aids for Disaster Relief and humanitarian assistance	♣ Review international network
Dissemination	♣ Reintroduce Rovering to the community.	♣ Solicit feedback on RPS and Rover Journey	♣ Disseminate updated RPS and Rover Journey	♣ Launch of Start-up kit and handbook	♣
Implementation	♣ Formation of 5th NRC	♣ Implementation of feedback system and method ♣ Recruitment of Functional Teams such as IT, SWP etc ♣ Fully operational web portal & social media sites. (including resource library)	♣ Full operation of NRC and NRR ♣ Implementation of work processes and guideline for NRC and Rover Crews for National Project execution ♣ Rover training and skill courses. ♣ Formation of 6th NRC	♣ Official Launch of Rover Journey ♣ Launch tertiary plan ♣ Implementation of Rover mentorship programme ♣ Establish relations with other National Rover Organisations in APR ♣ Formation of 7th NRC	♣ NRC and NRR fully self-driven and self-sustaining. ♣ Implement functional methods in providing international aids for Disaster Relief and humanitarian assistance ♣ Formation of 8th NRC
Events	♣ BPA Ceremony and Rover Gathering	♣ Expeditions ♣ Blood Drive ♣ Project Rigel ♣ Rover Leaders Workshop	♣ 1 Ad-hoc project ♣ National Rover Conference ♣ APR Youth Forum	♣ SG Rover Moot	♣ HADR expeditions ♣ World Rover Moot
